WASTEQUIP - Roll-Off Sludge Container with Dewatering Shell

# Wastequip Roll-Off Sludge Container with Dewatering Shell

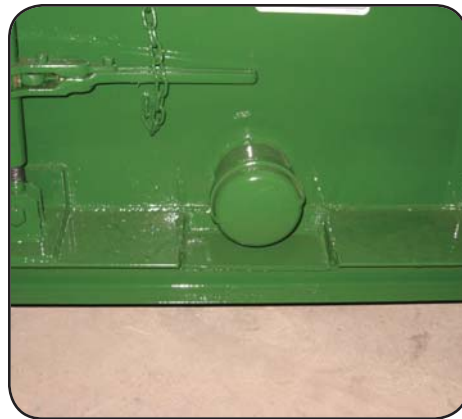

Hydro Tested  
to meet  
Wastequip's  
Standards

## Plastic/Aluminum Lid

The customer may choose to add a vapor-seal plastic or aluminum lid, which is a single piece, side-to-side lid that creates a vapor tight seal.

## Drain

The drain is located on the rear door unless the customer specifies another location. Standard drain is 4" in diameter.

## Tarpping Solutions

Tarps available from Wastequip's own Mountain Tarp.

## Standard Color Options

Wastequip offers many standard color options. If you need a custom color, call us.
