- Stackable fully assembled or unassembled for easy storage & handling.

- Low maintenance - 100% plastic container with superior impact resistance, easy to clean and no painting required.
- Designated area for optional mold-in color graphic.

- Will not rust or corrode ideal for wet or humid climates.
- Engineered structural ribbed bottom Wear Chimes for added durability when used without casters.
- All plastic body, lid and lift pockets make this Container lightweight, and easier to maneuver than the conventional steel containers.
